

# CORRIDOR LIGHTS

## CL SERIES

## 302 SERIES

The corridor light is available with 1, 2, or 3 lamps furnished with steel segment dividers for individual light separation. The shatter proof, wedge-shaped translucent dome snaps into a stainless steel face plate for ease of lamp replacement and concealment of mounting screws.

Face Plate: The CL series is on a single gang S/S face plate and the 302 series is on a double.

Size: Single Gang 2 3/4" x 4 1/2" Double Gang 4 9/16" x 4 1/2"

Mounting: Minimum back depth is 1 5/8" to the required standard back box.

Lamps Used: GE 1829 Bayonet base type or equivalent.

Options: Colored lamp caps.

CL series is also used in NC- 7 system 302 suite.
